Independent Study Material (Books)

The below referenced books are only suggestions and are not endorsed by UA Local 342, JATC. Feel free to use any applicable book you wish. The test consists of two parts: Numerical Ability: eighth grade level pre-algebra (decimals, fractions, percentages) and Mechanical Aptitude.

Numerical Ability - Math

Practical Math Success in 20 Minutes a Day
By Learning Express Editors - Price \$16 (approximately)

Mechanical Aptitude

Barron's How to Prepare for the Mechanical Aptitude & Spatial Relations Tests
By Joel Wiesen – Price \$18 (approximately)

NOTE: Study the Mechanical Aptitude section of the book.
